Session was organized in association with NSDL, Mumbai on 5th March from 3.30 PM. Total 65 students were enrolled and present for the session. Mrs. Anjali Joshi was the resource person who has covered various topics, including the importance of understanding principal, income, investment, and inflation in making sound investment decisions. Additionally, students were introduced to the "3 S" principle of investing, which emphasizes starting early, spreading investments wide, and staying invested for the long term.

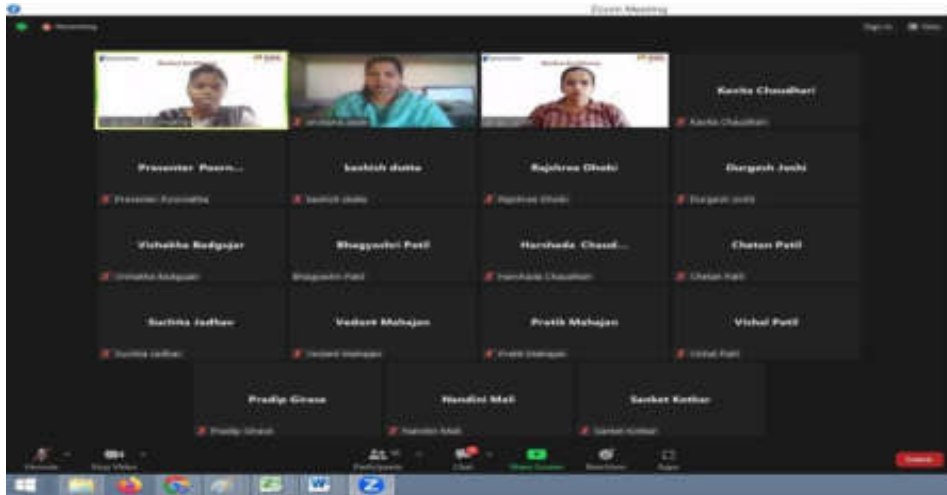

Mrs. Anjali explained the concepts as below to students such as:

- Principal, Income, Investment, and Inflation in which Students learned about the concepts of principal (the initial amount invested), income (returns generated from investments), investment (placing funds into assets with the expectation of generating income or profit), and inflation (the rate at which the general level of prices for goods and services rises).

- Students were provided with guidance on opening a DEMAT account, which is necessary for investing in shares and other securities in electronic form.
- The session highlighted the difference between trading (buying and selling securities frequently to take advantage of short-term price movements) and investment (holding securities for the long term to benefit from capital appreciation and dividends).

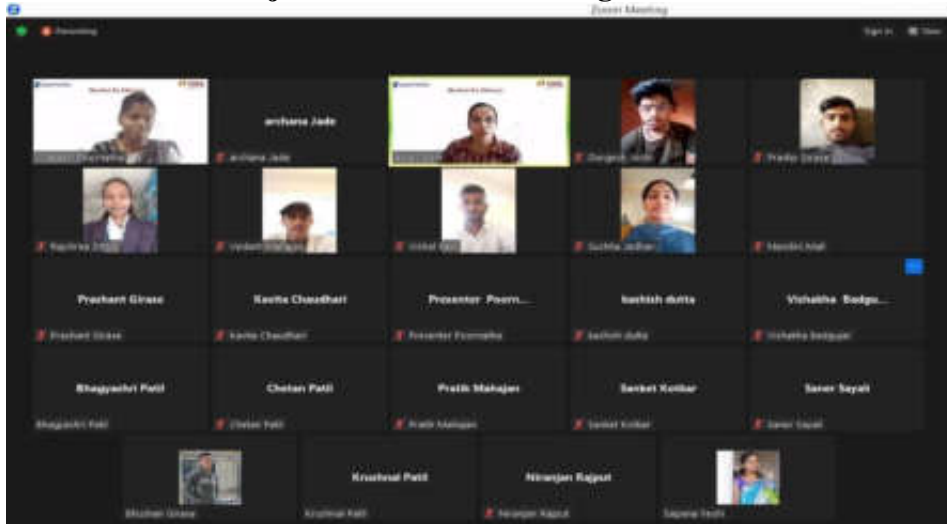

The session was delivered through a combination of lectures, interactive discussions, and real-life examples to engage the students and enhance their understanding of the topics.
