## Director's Message:

Knowledge and continuous learning is the mainstay amongst the best organization of today. A unique feature of IMRD Education is our emphasis not just on knowledge department, But also on personal, spiritual and social development. IMRD Education has established a strong hold in delivering application and value based education to the students in continuous learning environment. This integral and value based formation will impel our students to be innovative, competent and creative leaders.

They are groomed in a manner as to server as agents of continuous improvement and change. Our aim is to build an effervescent community where faculty and students are cronies in a mutually inspirational education process, engrossed in learning. We are committed to nurturing juvenile minds and preparing them for challenges in today's globalized technology. Whether in front of a classroom or seated next to students in a laboratory, our professors are dedicated to helping students explore their possibilities and achieve their potential. The Institute is committed to equity and promoting talent without any prejudice. I strongly believe, like me you would also love to enjoy the proud privilege of becoming a part of this institute. We have been constantly transforming ourselves into a progressive institute of thought that has the capacity to re-visit its learning framework; revitalize the elements that work and do away those that do not. Our pace with the rapid evolutions is always on our minds, and our endeavours to humanize our classrooms; at our hearts. I welcome you to explore the world of IMRD.

## Art of Steps Forward:-

IMRD stand on three main pillars which work as Academic Cell, Activity Cell, Training and Placement Cell.

Academic cell concentrates on effective teaching and academic strengths to achieve the height of excellence through consistent efforts for improving intellectual level and technical skills of students

Activity cell work to develop different skills like communication and presentation by arranging events, sharing responsibility and participation in competitions which gives exposure and increases confidence among students.

Training and placement unit provides counselling and career guidance to students. Constant cycle of training programs and campus interviews gives students a chance to secure placement at any one of the companies. The placement cell provides 100% placement to student. Based on this three cells following new proposed activity plan prepared by each department:
