Every year more than 10,000 students apply for government job but somehow they couldn't make it because of lacking somewhere in preparation for the competition. Students should focus on aimed position that is to be achieved - First of all students should aim for one competition they want to crack and for what position because many students apply for several posts and it creates all confusion which should not be done. For the written examination candidates must go through topics one by one based upon syllabus that will make the procedure easy and smooth. Earlier we have an unofficial alumni association group still it is working effectively. As per different suggestions by our alumni, we have transformed this unofficial group to authorized registered Alumni Association organization.

The main objective of this Alumni Association is to:

- Create a strong network between Alumni and Institute.
- Create a strong network for alumni progression as well student's progression.
- To promote a sustained sense of belonging to the Alma Mater among the Alumni by being in regular contact with them.
- To provide a forum for the Alumni for exchange of ideas on academic, cultural and social issues of the day by organizing and coordinating reunion activities of the Alumni.
- Maintaining the updated and current information of all Alumni.

With these objectives, we sure that we can increase the connections among alumni and Institute. We look forward to connecting with alumni on the basis of their interests through our affiliation efforts and to foster their connections with IMRD as well as with each other. Alumni associations not only build crucial relationships between alumni and the institution, this translates into potential revenues. To make this organization more dynamic, we appeal to all our alumni to join our Alumni Association and get a membership.

Benefits of Membership:

- A Strong Network of Alumni.
- Alumni career services.
- This membership will provide a social platform.
- This will helps to keep in touch with your classmates, faculties and current batch of students.
- This association will help and support needy and bright students.
- The funds raised by alumni association members will help to increase our strategic initiatives of engaging alumni, creating tangible events and programs.
- Scholarships to the needy, scholar and brighter students.
- Automation or up-gradation in technology.
- Modernization in technology which will help for students as well faculty progression.

We assure you that these funds will only be used with the prior permissions of all core team members. As per discussion with a core team member of Alumni Association we have categorized these memberships as below
